

7th Western Canadian Symposium on Water Quality Research

CALL FOR PAPERS

Whistler, BC - April 30 to May 3, 2006

The 7th Western Canadian Symposium of Water Quality Research will be held jointly with the 34th Annual British Columbia Water and Wastewater Conference and Trade Show at the **Whistler Convention Centre in Whistler, BC from April 30 to May 3, 2006.**

Involvement of researchers in academia, industry, government, and students is encouraged. The **Philip H. Jones Award** for best student oral presentation will be awarded at the end of the Symposium. Abstracts for presentations describing current research activities are solicited on the following topics:

- ◆ Analytical technologies
- ◆ Decentralized wastewater systems
- ◆ Drinking water disinfection
- ◆ Drinking water distribution systems
- ◆ Drinking water supply
- ◆ Drinking water system management
- ◆ Drinking water treatment
- ◆ Drought management
- ◆ Emergency technologies
- ◆ Organic residuals processing and recycling
- ◆ Security issues
- ◆ Small drinking water systems
- ◆ Small wastewater systems
- ◆ Stormwater management
- ◆ Wastewater collection
- ◆ Wastewater management and reuse
- ◆ Wastewater treatment
- ◆ Water conservation
- ◆ Water sustainability

Abstracts of proposed papers should be **250 words or less** and submitted on the abstract form to the attention of Kelly Bush, University of British Columbia at **klbush@interchange.ubc.ca**. Abstract templates, format, and general conference information are available from CAWQ's website **www.cawq.ca** and BCWWA's website **www.bcwwa.org**.

Deadline for submissions is November 30, 2005

For further information, please contact Dr. Eric Hall, CAWQ Symposium Technical Co-Chair at **ehall@ubc.ca**.
